Laser Therapeutics

- Introducing the Lipo Laser Plus Slimming System from Laser Therapeutics!
What is the Lipo Laser Plus?

- Low Level Laser (LLLT) or otherwise known as Cold Laser
- Class 3 B Laser
- Medical Grade Laser
  - No Heat
  - No Cutting
  - No Cauterizing
- Can be used on any part of the body*
- Comfortable for the patient
- No Side Effects
First, Lipo Laser emits several laser beams into the targeted areas of fat and cellulite to increase catabolism at that site.

Second, Lipo Laser tightens the dermis via natural collagen production.
This is a picture from a scientifically controlled study that shows the Lipo Laser treatment in process.

Note the cellular perforation happening to expel the contents of the adipocyte or fat cell.

The expelled content is then carried away by the lymphatic system of the body and eliminated by normal means.
Results are seen within 24-48 hours after the treatment, in some cases results are noticed immediately following the treatment.

Pictures and measurements should be taken before, during and after the series of treatments are completed.

The use of the Lipo Laser Plus:
- Stimulates rapid production of new collagen by fracturing immature collagen spindle fibers.
- Fractured pieces grow into complete fibers increasing collagen in targeted areas.
- Tightening the skin naturally
Is the Lipo Laser safe?

YES!
Lipo Laser Plus is:
- Safe
- Effective
- Very comfortable for the patient
- Completely noninvasive.

A pilot study was performed on the Lipo Laser and the results were presented to the American Society of Lasers in Medicine and Surgery in 2008.
- FDA clearance
- With results demonstrating a loss of 5-6 inches in a matter of weeks.
Why Use Laser Therapy Vs. other types of technology?

The answer is simple:

Patient safety and Cost!
Beneficial To Your Patient

- It’s painless
- No need for anesthesia
- Non-invasive
  - Eliminating risks
- Minimal limiting factors
  - Metal pins
  - Implants
- No bruising
- No swelling
- No damage to surrounding tissue
- No bandages
- No special garments to wear
- Total treatment time is less than their lunch hour!
Beneficial To Your Business

- No chemicals
- No maintenance
- “Unattended Therapy”
  - Attend to other patients during treatment
  - Staff resume other duties
- Lipo Laser System price point provides affordability your clients and increase spa revenue
- Use Presso or Massage therapy in combination with Lipo Laser to increase spa revenue and accelerate results!
How is the Lipo Laser Plus system used?
How is the Lipo Laser Plus system used?

The Lipo Laser Plus system uses continuous mode. The optical power is set to 130 mW, and the time is set for 30 minutes. Please select the treatment pad from PL1 to PR5, and then press the START button to begin the treatment.
